DETAILED ACTION

Response to Remarks

1. Applicants' arguments and amendments, filed on 6/27/03, have been approved and entered. They have been fully considered but they are not deemed to be persuasive. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn. The following rejections and/or objections are either newly applied or reiterated. They constitute the complete set presently being applied to the instant application.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 55-58, 60-68, 70-74 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In claim 55, section (I) (A) and (B), it is stated that R is selected from lower alkyl, aralkyl and aryl. The specification on page 9, for example compound 48, shows that R is alkyl (lines 28-29). There is no disclosure of R being selected from aryl or aralkyl.

Claim 73 recites in lines 3-4 that R' and R'' are independently selected from the group consisting of lower alkyl, aralkyl and aryl. However, the specification only discloses that such groups are only alkyl. There is no disclosure of R' and R'' being aralkyl or aryl for the COOR' and CONR'R'' moieties.

Same problem for claim 68 where the R' is shown in the specification to be only alkyl and not alkylcarbonyl for the SR' moiety.

Therefore all these discussed limitations are viewed to be New Matters.

Applicants have not amended the claims to overcome said rejections. Therefore the rejection is maintained.

3. **THIS ACTION IS MADE FINAL.** See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
